Education

Swami Ramanand Teerth Marathwada University (SRTMU)

Nanded, India

Bachelor of Science in Data Science

Aug. 2024 – July 2027

- Relevant Coursework: Data Structures, Statistics, Data Analysis, Machine Learning, Database Management

Technical Skills

Programming Languages: Python (Pandas, NumPy, Scikit-learn), SQL, R (Basic)

Data Visualization: Power BI (DAX), Tableau, Matplotlib, Seaborn, Plotly, Excel (Pivot Tables, Advanced Formulas)

Data Analysis & Tools: Statistical Analysis, Data Cleaning, ETL Processes, Jupyter Notebook, Google Colab

Database Management: MySQL, PostgreSQL, Microsoft SQL Server

Other Skills: Git/GitHub, Predictive Modeling, Business Intelligence, Data Storytelling, Accounting Principles

Projects

Sales Performance Dashboard | *Power BI, SQL, Excel*

- Designed an interactive Power BI dashboard analyzing 50,000+ sales records to identify revenue trends and product performance, resulting in actionable insights for stakeholders
- Implemented DAX measures for YoY growth calculations and utilized SQL queries to extract and transform data from multiple sources, improving reporting efficiency by 40%
- Created dynamic visualizations with drill-through capabilities enabling regional sales analysis and customer segmentation

Exploratory Data Analysis on Brazilian E-Commerce (Olist Dataset) | *Python, Pandas, Matplotlib, Numpy, Seaborn..*

- Completed an end-to-end Exploratory Data Analysis project using the Brazilian E-Commerce Public Dataset by Olist of 1,00,000+ records. Analyzed Delivery Delays, Customer Behaviour and Order cancellations
- Performed comprehensive data preprocessing including handling missing values, feature engineering, and encoding categorical variables using Pandas and NumPy
- Visualized using Matplotlib and Seaborn, presenting findings that informed reasons behind Delivery Delays, Customer Behaviour and Order cancellations

Professional Experience

Data Analytics Virtual Intern

Tata Group (Forage Virtual Program)

- Completed data visualization project empowering business decisions through effective insights using Tableau and Power BI
- Analyzed retail sales data to identify seasonal trends and customer purchasing patterns, presenting findings to senior leadership through compelling visual narratives
- Developed executive-level dashboards with KPIs tracking revenue, customer acquisition, and operational efficiency metrics

Data Analytics Virtual Intern

Accenture North America (Forage Virtual Program)

- Conducted in-depth data analysis and visualization for a social media client, processing 100,000+ user interaction records to identify content performance trends
- Cleaned and modeled data using Python (Pandas) and created presentations highlighting top-performing content categories, driving strategic content recommendations
- Collaborated with cross-functional teams to understand business requirements and translate them into analytical solutions

Certifications

Career Essentials in Data Analysis: Microsoft & LinkedIn Learning

Data Visualisation: Empowering Business with Effective Insights: Tata Group Job Simulation (Forage)

Data Analytics and Visualization: Accenture North America Job Simulation (Forage)

Achievements & Leadership

Academic Excellence: Maintained strong academic performance while pursuing intensive data science curriculum

Self-Learner: Completed 10+ hours of online courses in advanced Python, machine learning

Community Contribution: Active contributor to data science communities, sharing insights and learning resources on LinkedIn
